

Consist Group Overview

Founded in 1972, the Consist Group is a leading business information technology vendor. With 1,000 employees (over 400 in Europe) worldwide and headquarters in New York, Consist Group is present all over South America, as well as Mexico, Germany, Spain and Israel.

The Consist Group delivers software based solutions in 3 ways:

- Software solutions developed in Consist development centers,
- Software solutions developed by other leading software vendors represented by Consist,
- Software solutions developed specifically to customer requirements and offered as consulting services or Fixed Price projects.

The software areas cover by Consist includes Banking systems, Output Management Systems, Software migration systems, ERP, Human Resources, Business Intelligence, WEB based solutions, IT centers management solutions and more.

Consist Group solutions and services cover the full range of IT technologies, keeping its know-how always up-to-date to the leading-edge innovations in computers, IT environments, programming languages, database technologies and prevailing standards and trends.

Consist worldwide customer base is composed of leading organizations in each country: Federal and State Government, municipalities, telecommunication companies, financial sector, industry and commerce, utilities and more. Software systems and services delivered by Consist are typically mission-critical, usually based on a long-lasting strategic partnership between Consist and its customers.

The values of Professionalism, Dedication, Responsibility, Fairness and Friendliness are shared across the Consist Group. These values form the basis for Consist's continued success since 1972 and for the future to come.
